What could ONEPAPER do?

Research and Development the DIY Craft PACK.

1. All the DIY/Crafty Project that we are interested to develop.
2. The advantage kits is about Paper, Sounds Module in 2018. For 2019, Will plus LED chipset and cloth.
3. Easy to start with a small quantity, Or start from same DIY project pack but with different cards or pack to test the market.
4. Any though project that you like to try?

Quality Inspection and Packaging

1. Do the paper package and quality inspections before pack them in our warehouse.
2. Handel your different orders from different company together.
3. ONLY for the clients of DIY/Crafty project to promise the quality inspection capability.
4. Reference by onepaperbox.com

Help you order to factory directly after the trail order.

1. You could order to the factory while your big bulk order if you like.
2. We focus on research and develop to help you get the designs and creations done. So the better way is keep our foolish and hungry to new. That is also better for your to deal with factory if all good and growing fast.
3. If you don't like to, we will in charge all and down your price lower and lower per year as we could by ship our same destination orders together to down the transportation cost. Or mix the quantity from our all clients to have better cooperation price from factory.
